What is the Cigna Dental Oral Health Integration Program?

It's a program that reimburses out-of-pocket costs for specific dental services used to treat or help prevent gum disease and tooth decay. The program is for people with certain medical conditions that may be impacted by dental care. There's no additional cost for the program – if you qualify, you get reimbursed!*

Do I qualify?

If you have a Cigna dental plan, you're eligible for the program. It doesn't matter if you have Cigna health insurance or not. The only requirement is that you're currently being treated by a doctor for:

- › Heart disease
- › Stroke
- › Diabetes
- › Maternity
- › Chronic kidney disease
- › Organ transplants
- › Head and neck cancer radiation

How does it work?

When you visit your dentist, you will pay your usual copay or coinsurance amount. As a reminder, your copay is the fixed amount you pay for covered services. And your coinsurance is the percentage of costs you pay for covered services. Next, your dentist will send Cigna a claim. We review the claim and will refund your copay or coinsurance for eligible services. Once we receive your claim, you can expect to be reimbursed in about 30 days.

By getting the right oral health care, along with regular medical treatments, you may be able to improve your overall health.

*You do not need to meet your plan's deductible to receive reimbursement for these services. However, any reimbursement you receive will apply to and is subject to your plan's annual maximum. If you have coverage for out-of-network services you may choose to visit an in-network or out-of-network dentist. However, remember that it's a good idea to use an in-network (participating) dentist. Participating dentists have a contract with Cigna. This means you pay less.

Together, all the way.™

Offered by: Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company, or their affiliates.
